* Student visas can only be issued for the duration of your studies at the institute and can't cover periods of travel before or after the course longer than two days.

** We strongly recommend that you contact the visa center or consulate for the exact details regarding the document required as there maybe differences in different countries.

How do I get my visa?

Step 1 - Go to derzhavin.com and **fill in an online application** for study. Unless you know that you will be receiving an invitation letter from another source, check "yes" when you are asked if you need visa support. Submit this form and **send a copy of your passport** to the Derzhavin Institute.

Step 2 - Once your application has been received, you will be sent an email with a **course booking confirmation**. Check that all of the information in the document is correct.

Step 3 - You will now receive a **payment document/contract** for your course fees. Pay these and send a copy of the receipt to the institute together with the signed contract.

Step 4 - Once your payment has been confirmed you will be sent your invitation letter. This will either be an electronic copy, if you are applying for a tourist or simplified study visa, or the original physical letter if you applying for the FMS Study Visa. Electronic invitations will be sent out immediately via email, physical invitations will be sent out by courier and take between 3-7 days to arrive.

Step 5 - When you have received your invitation you will be able to **begin filling out your visa application forms**.

- If you will be applying for your visa in the UK, the Czech Republic, Finland, Poland, South Korea, Romania and Singapore, then you can access the visa form through [VFS Global](#).
- If you will be applying for your visa in Estonia, Austria, Belgium, Bulgaria, Canada, China, Croatia, the Czech Republic, Denmark, France, Germany, Greece, Hungary, India, Italy, Latvia, Lithuania, the Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Sweden, Switzerland, Turkey or the USA, then you can access the form through the **IFS-(name of the country).com**.
- If you will be applying for your visa in a country which has not been mentioned above that usually meant that you will have to apply to the consulate directly.

Before filling out the visa application form please read through the additional information regarding your visa type, its pricing and other documents required on the corresponding web-sites.

We strongly recommend that you apply for your Visa in your home country.

Step 6 - Check and **submit your visa application form** to receive a printable pdf version. Thoroughly read through all information on your visa agency's website regarding how to submit your physical application form and which additional documents (e.g. passport, invitation, etc.) you will need to submit along with it.

Step 7 - Visit your visa centre (check in advance if you require an appointment to do so) and submit all the required documents and pay your visa fees. The time it takes to process your visa application may vary depending on the visa agency and whether you pay extra for priority processing.

Step 8 - Once your visa has been processed you will be able to **collect it from the visa centre** or, if you paid to have it delivered to you when you submitted your documents, it will be sent to you along with any documents that need to be returned to you (i.e. your passport).
